State-led mass vaccination sites administer more than 130,000 doses of COVID-19 vaccine

OLYMPIA – The Washington State Department of Health (DOH) is proud of the success our four state-led mass vaccination sites continue to achieve. Thanks to the hard work of DOH staff, the Washington National Guard, and local and private sector partners, since opening January 26, a total of 131,483 doses of COVID-19 vaccine have been given out across the four state-led mass vaccination sites, which includes:

- 28,330 doses in Spokane
- 35,315 doses in Ridgefield
- 30,978 doses in Wenatchee
- 36,860 doses in Kennewick

First dose appointments will be available at all four sites next week. To make an appointment you must first [confirm you're eligible](#) for the COVID-19 vaccine using [Phase Finder](#). Phase Finder does not make you an appointment. Once confirmed through Phase Finder, you can make an appointment at one of the [mass vaccination sites](#) listed below. Please note, hours and registration information are different for each location and may be different than in weeks past.

Spokane

Spokane will administer both first and second doses next week. Please [make your first dose appointment online](#) using Safeway's registration system. If you received your first dose at the Spokane Arena mass vaccination site, you were given a second dose appointment at that time. Please make sure you return to the same location for your second dose. If you did not receive a second dose appointment, please call the COVID-19 information hotline at 1-800-525-0127, then press #. Language assistance is available. If you are still unable to get a second dose

appointment, please bring your COVID-19 Vaccination Record Card and ID to the site during hours of operation and it will be honored.

If you are arriving for your second dose, please bring your COVID-19 Vaccination Record Card, which you were given when you received your first dose. This card displays your first dose date and vaccine type. Remember to wear clothing appropriate to receive the vaccine in your upper arm.

Spokane administers the Moderna vaccine, which is a two-dose series. The second dose should be administered one month (28 days) after the first dose.
